

# D.A POWDER

## MILKING MACHINE DETERGENT POWDER

**DA POWDER** - Detergent Powder - A white free flowing powdered detergent with medium foaming properties. **DA POWDER** is completely soluble and is made from 100% active ingredients.

A unique combination of water softening agents and emulsifiers assist in reducing water stone build up, particularly in hard water.

### WARNING

CONTAINS:

SODIUM CARBONATE 30-60%  
SODIUM METASILICATE 10-30%

Refer to Safety Data Sheet, for more information.

### FEATURES AND BENEFITS:

- Alkaline based formula.
- Environmentally friendly.
- Economical, concentrated formula

### DIRECTIONS FOR USE:

Milking Machine Cleaning - immediately after milking, wash off all dirt from teat cups and claws. Do not break vacuum until the machine is clean. Run a small amount of cold water through the last set of cups to rinse out any milk in the milk line.

Commencing nearest the releaser end, immediately put at least 5 litres of cold water through each set of cups, 10 litres of cold water through the last set. In the same sequence run the detergent solution through using 15 grams of **DA POWDER** to 10 litres of hot water (70°). The detergent solution must be hot as this aids in the removal of fatty films.

Rinse thoroughly with hot water (70°).

### TECHNICAL INFO

Appearance - White Powder

Fragrance - Characteristic

Meets environmental standards

Ph - 10-11 (as supplied)

Pack Sizes - 15kg Pails

Shelf Life - 2 years
