

Guardian

All in one multi-purpose
antibacterial and antiviral cleaner

- **100% Bio-degradable.**
 - **Powerful Cleaning Action**

Super Concentrated, Industrial Strength Degreaser/Cleaner, and Disinfectant.

Unlike conventional cleaning products that only remove visible dirt and grime, Guardian all in one combines the power of cleaning and disinfection in one solution. It not only cleans surfaces but also effectively eliminates harmful microorganisms, such as bacteria, viruses, and fungi, thus reducing the risk of disease transmission.

This dual-action approach ensures that spaces are not only visibly clean but also free from invisible threats. Guardian has been specifically formulated with active ingredients designed to target specific pathogens, including Coronavirus, SARS-CoV-19 *Pseudomonas aeruginosa*, *E.coli* *Staphylococcus aureus* and *Salmonella*.

Can be included as part of the cleaning & infection control process across multiple settings such as: Hospitals, Nursing homes, Schools, Offices, Gyms, Medical/Dental/Vet practises, Beauty & Hair salons and Commercial/Retail food preparation.

Use Guardian to clean, degrease and disinfect all hard surfaces in the kitchen and bathroom benchtops, sinks, cooktops, splashbacks, tiles & food preparation utensils.

Guardian will also effectively clean and sanitise appliances such as dishwashers and laundry washing machines and spa cartridge filters.

**Kills 99.9%
of germs**

TGA Approved ARTG No. 353369

Active Ingredient

Quaternary Ammonium Compounds

0.4% V/V

Unlike most other Covid-19 registered disinfectants, Guardian has been registered as a Type B, so it can be used directly onto soiled surfaces, without compromising its ability to kill.
