

# PROTECTOR

## No Rinse Surface Sanitiser

**PROTECTOR** - is a blue coloured liquid that contains a combination of highly effective quaternary sanitisers. It has been specially formulated to leave cleaned surfaces germ free. **PROTECTOR** is formulated to provide an economical, highly active solution intended for use after end of day cleaning in food preparation areas with no rinse needed.

### FEATURES AND BENEFITS:

- Improved sanitising performance at lower use concentrations.
- Greater hard water tolerance sanitising activity at lower use levels.
- Superior organic soil tolerance.
- **PROTECTOR** is suitable for use in food preparation areas.

### WARNING

CONTAINS:

BENZALKONIUM CHLORIDE  
100G/L

Refer to Safety Data Sheet, for more information.

### DIRECTIONS FOR USE:

**PROTECTOR** is equally efficient when used as a final rinse in refrigerators or on cool room surfaces. Used in rinse water after cleaning it will control odours from floor drains.

**PROTECTOR** can also be used for water treatment in cooling or air conditioning towers to retard the growth of algae and to control bacterial and microbial activity.

Dilute 25mls of **PROTECTOR** into 10Ltrs of CLEAN water for NO RINSE food contact surface sanitising. Lightly spray surfaces to be sanitised with prepared solution, ensure total contact, especially where shelves or shelf supports meet surface. Avoid leaving "puddles".

### PACKAGING:

1 Litre Bottles  
5 Litre READY TO USE Solution

### TECHNICAL INFO

<b>Physical Description &amp; colour:</b>	Dark Blue Liquid.
<b>Odour:</b>	nil odour
<b>Specific Gravity:</b>	1.0
<b>Water Solubility:</b>	Completely soluble in water.
<b>pH:</b>	7
