

TYPHOON

Quat Based Detergent Sanitiser

TYPHOON - Quat Based Detergent Sanitiser - (**ACTIVE CONSTITUENTS: 50 g/L Potassium Hydroxide, 50 g/L Quaternary Ammonium Compounds**) for sanitising and general purpose use. **TYPHOON** has been developed for the cleaning and sanitising of food processing plants. **TYPHOON** is a "One Shot" high foaming detergent sanitiser and contains 5.0 % w/v quaternary ammonium compounds. It has been formulated for use at temperatures of 60 - 70°C.

FEATURES AND BENEFITS:

- Combined detergent / sanitizer
- Assists in the prevention of hard scale water build up
- Highly effective germicide
- Free rinsing

TYPHOON is formulated for use through foaming equipment of high pressure wash down units. Use rate varies from 50 - 250ml per litre of water, depending upon the degree of soilage and style of equipment. Allow a suitable contact time of 10-15 mins followed by a light scrub then rinse off with a high pressure potable water.

TYPHOON can also be used for fogging and foaming, at a dilution rate of 1:50 for both fogging and foaming.

Refer to Safety Data Sheet, for more information.
