

TYRE DRESSING

TYRE DRESSING is a specially formulated treatment designed to revitalise, rejuvenate, protect and extend the life of rubber, plastic and vinyl surfaces. By restoring lost moisture and sheen this product helps improve surface appearance, leaving materials looking cleaner, darker and closer to their original condition.

Formulated with high-grade conditioning agents **TYRE DRESSING** also acts to delay the effects of ageing, such as drying, fading, and cracking. Regular use helps maintain surface flexibility, colour depth and resistance to environmental exposure.

Ideal for use in automotive, marine, industrial and commercial environments, as well as on a wide range of indoor and outdoor applications.

Refer to Safety Data Sheet, for more information.

FEATURES AND BENEFITS:

- Restores and enhances the appearance of aged or weathered rubber, vinyl and plastic
- Delays hardening, drying and cracking from UV and environmental exposure
- Leaves a clean, low-shine finish that repels dust and dirt
- Easy-to-apply liquid formulation – wipe or spray on
- Suitable for both interior and exterior surfaces
- Non-greasy, non-slinging finish – ideal for tyres, dashboards, trims, seals and bumpers

Appearance - White Liquid

Fragrance - Mild odour.

Completely soluble in water.

Pack Sizes - 5lt drums, 15lt drums

Shelf Life - 2 Years

DIRECTIONS FOR USE:

1. Ensure the surface is clean and dry before application.
2. Apply a small amount of **TYRE DRESSING** to a clean cloth or cloth.
3. Wipe evenly over the surface.
4. Allow to absorb, then buff with a clean, dry cloth if desired.
5. Reapply periodically to maintain protection and finish.
