

SHINE

STAINLESS STEEL CLEANER AND POLISH

SHINE - Stainless steel cleaner and polish is a dual-action formula that cleans and polishes in a single application, leaving a smooth, streak-free finish while providing ongoing protection. It is specifically designed for use on uncoated and lacquer-coated stainless steel, aluminium, copper, and anodised metal surfaces.

The high-performance nature of SHINE ensures it removes smudges, grease, watermarks, and light grime with ease, and leaves behind a micro-thin protective coating that resists fingerprint marks, oxidation, and dulling.

Ideal for environments where frequent hand contact or presentation is a concern, such as commercial kitchens, lifts, door panels, appliances, and display fixtures.

FEATURES AND BENEFITS:

- Cleans and polishes in one step
- Leaves a protective, fingerprint-resistant barrier
- Suitable for use on multiple surfaces
- Ideal for high-touch surfaces – reducing cleaning frequency
- Non-abrasive formula – won't scratch or damage surfaces
- Easy-to-use spray and buff application

DIRECTIONS FOR USE:

Shake well before use.

Spray lightly onto a clean cloth or directly onto the surface.

Wipe over the surface evenly.

Buff with a dry, soft cloth to enhance shine and remove any remaining marks.

Reapply regularly to maintain protection and appearance.

Refer to Safety Data Sheet, for more information.

Suitable for use in food preparation areas.

Appearance - Clear colourless slightly viscous liquid

Fragrance - Characteristic odour.

Insoluble in water

Pack Sizes - 5lt drums

Shelf Life - 2 Years
