

GLOW

COMBINED LAUNDRY SOUR / FABRIC SOFTENER

GLOW is a premium-quality, dual-action laundry additive that combines the benefits of both a fabric softener and a souring agent in one convenient product. This opaque blue liquid features a pleasant floral fragrance and is specially formulated to be used after the bleach cycle in commercial and institutional laundry systems.

GLOW effectively conditions and softens all fabric types while simultaneously neutralising residual alkalinity from previous wash steps. This dual functionality not only improves the feel, finish, and freshness of textiles but also protects fibres from long-term damage and skin irritation caused by high pH residues.

[Refer to Safety Data Sheet, for more information.](#)

The ratio between the sour and softener components has been precisely balanced to ensure maximum performance of both functions, leaving garments feeling soft, smelling fresh, and pH neutral.

TECHNICAL INFO

Suitable for use in food preparation areas.

Appearance - Creamy Pale Blue Liquid

Fragrance - Floral

pH - 1-2

Pack Sizes - 15lt drums

Shelf Life - 2 years

FEATURES AND BENEFITS:

- Two-in-one formula
- Enhances fabric softness, while reducing static cling
- Leaves a lasting floral fragrance on washed items
- Helps maintain fabric colour, strength, and absorbency
- Reduces detergent and chemical carry-over into the rinse cycle

DIRECTIONS FOR USE:

GLOW is dosed in the final rinse at a rate of 50 - 100 mL per 45 kg of dry weight to achieve a final pH between 5.5 - 6.5. Dose rates will be dependent on the residual alkalinity.

The technical information/suggestions herein are believed to be reliable but since the conditions of use are beyond our control they are not to be construed as warranties. It is the purchasers responsibility to test and determine the suitability of a product for the purchasers intended use.
